First MedChild Award for Best Practices

Report on main results and presentation of selected Best Practices
Dubai, 17 May 2005

MedChild Paper No. 2

The MedChild Foundation was born to take the part of children who live on the Mediterranean shores, both from a social, educational and medical point of view, independent of political and religious convictions.
The overall objective is to follow the guidelines of the International Convention on the Rights of the Child and secure a survey of their application.
The MedChild Foundation has been created in order to favor interaction and mutual enrichment between cultures, to favor the diffusion of peace and tolerance between people, starting with the young ones, helping them to grow in a better world.
